W. N DAVIS, M. D.,

M. C. P. S. O.,

GRADUATE OF CHICAGO HOMŒOPATHIC College, Chicago, Member of College of Physicians and Surgeons of Ontario, having devoted several years to the special treatment of diseases of the nose, throat, lung, liver, and kidneys, as well as all chronic diseases, will continue to pay special attention to the same.

Consumption

And bronchitis treated by the aid of medicated inhalations, a new apparatus being employed by which means the inhalation can be taken during sleep, which quiets all unproductive cough. A clearing-out cough usually occurs in the morning. This gives nature a chance to heal the diseased lungs and lessens the tendency to hemorrhage. Constitutional medicines are employed in all cases.

Catarrh

Causes a great deal of inconvenience to the sufferer as well as to friends who are constantly in his presence, by the disposition to clear the head. This disease is usually located in the back part of the nose, and can be cured by our mode of treatment in every case if not too far advanced.

The Times.

Office—Temple, Main and New High.

McCAFFERTY, are you the man?

EVARTS says he is in the Presidential field for 1892. This is one of the great man's little jokes.

SENATOR EVARTS for the Republican nominee for President in 1888. There is something to think of, Republicans!

AN Irish harp in one of the houses of Parliament was torn to pieces by the explosion. This was not the harp that hung in Tara's halls, however.

AN evening contemp. takes exception to four telegraphic head-line fiend's designation of the speech of Senator Steele as "stirring." Well?

LELAND STANFORD was yesterday elected United States Senator by the Legislature of California, receiving 78 votes, to 37 for George Hearst, 2 for Jas. T. Farley, and 1 for Niles Searles.

WASHINGTON (private) advices received in San Francisco, state that Senator Farley is booked for the Collectorship of the Port, to succeed Mr. Sears. Our Tully also wants the place—and a lot more hungry Democrats.

A VICTORY, a wound and a promotion, one following close upon the other, are incidents in the fortunes of war which have come to General Stewart within the past few days. To be called, besides, by his superior officer, General Wolseley, "the ablest soldier and the most dashing commander he ever knew," is a compliment worth the winning.

THE people own me, and in nominating me they have not surrendered any of their rights. They are not hostile to railroads, nor to the men engaged in railroad enterprise, if those men are fair in their dealings with the public.—[Leland Stanford.

This is a candid and fair utterance, which the people will be glad to see made good by Senator Stanford in his dealings with the public.

WE print this morning another readable New Orleans letter from Mr. J. A. Brewster, who never flags in his work of helping keep up California's end of the beam at the World's Exposition. He makes a graphic and lively picture of a bread-and-butter-eating match, on a large scale, which was not down on the bills, but which came off, all the same, to the immense satisfaction of about twenty thousand people. He also describes California Day at the show, and tells what was said and done there. It is apparent that very keen interest is felt in our State's exhibit at New Orleans, which fact affords encouragement for other exhibitors to go forward and by their exhibits help to swell the chorus of praise from countless mouths. Let Southern Californians act on the hint.

ANXIETY for General Stewart and his column of British troops in the desert, disaster to which had been feared, was removed by news received yesterday by the War Office in London. Stewart won a victory over the Arabs and is in communication with Gordon at Khartoum and with Wolseley at Korti. The victory is described as "brilliant" and the battle as "fierce;" but as the British loss is reported at only twenty killed and sixty wounded, the fierceness of the fighting would seem to have not been correspondingly bloody on the part, at least, of the natives, whose losses are put down at 1300. The British forces appear to have been greatly outnumbered. General Stewart was severely wounded. The Queen promptly telegraphed her congratulations and notice of the successful commander's promotion to be Major-General. All England has its hat in the air, and is rejoicing over Stewart's success and safety. Two newspaper corespondents were killed and another wounded. Gordon's position at Khartoum is foundto be by no means so desperate as has been supposed. Stewart's march is represented to have been a series of running fights.

A Freight Train Wrecked.

PICACHO, A. T., Jan. 28.—A collision occurred here last night which resulted in derailing nearly a whole train and smashing up eight cars. A portion of the freight train due here at 8:55 p. m., became detached and unfortunately the fore part outdistanced the latter and came in on time, unconscious of the break. The train had, however, but come to a stand when the rear portion dashed into it, with the result as above stated. Two tramps and the brakeman of the last car were the only ones injured and neither of them seriously. The work of clearing away was immediately begun and the road was opened in time for the eastern-bound express this morning.

Evarts' Presidential Aspirations.

SAN FRANCISCO, Jan. 29.—A Chronicle Washington special says: The attention of Evarts was drawn to a recent report which mentioned him as the coming Republican Presidential candidate. "I have not read the article," replied Mr. Evarts, "but I will say that I am a candidate for the Republican nomination in 1892." He then jokingly added: "I shall run upon the quarto-centenary of the discovery of America by Columbus." Evarts afterwards had long interviews with President Arthur and Mr. Blaine.

A San Jose Sensation.

SAN JOSE, Jan. 28.—The sensation of the day is the discovery, in a Chinese brothel, of a pure white female child, aged sixteen months. A Chinese woman, who has possession of the little one, says she got it last Thursday from her sister in San Francisco, and that her sister bought it when it was six days old. The first story told by the Chinese waman was that her sister was the mother of the child by a white father, but she afterwards stated that the child had been purchased. Sheriff Branham placed the woman and child in the county jail. He will keep them until the matter is thoroughly investigated.

A Murderer Hanged.

VICTORIA, B. C., Jan. 28.—Charles Rogers, the penitentiary warden who murdered Sterry, another warden, in October last, was hanged this morning in the jail yard. He preserved a calm demeanor to the last. He ascended the scaffold with a bound. He lived for several minutes after his fall.

The Liberty Bell.

NEW ORLEANS, Jan. 28.—The formal transfer of the Liberty Bell to the Exposition managers took place this afternoon in Music Mall, in the presence of 20,000 persons. The ceremonies began with the presentation of the bell by the committee to Mayor Guillotte. J. Y. R. Perkins, in behalf of the Mayor, made the response.

The Pay of Election Supervisors.

SAN FRANCISCO, Jan. 28.—United States Marshal Drew reports that he has received notice to the effect that the United States Attorney General has decided to allow the Supervisors engaged at the last general election full pay for their work—that is, $5 for each day employed.

It is rumored that the widow of Tom Thumb is soon to be married again, this time to "Count Rosebud," one of the Magri Brothers, who were recently on exhibition at New Haven.

SACRAMENTO.

Stanford Elected Senator on the Joint Ballot.

HE VISITS THE SENATE AND ASSEMBLY.

Complimentary Speeches by Governor Stoneman and the New Senator—An Anti-Railroad Episode.

Associated Press Dispatches to The Times.

SACRAMENTO, Jan. 28.—The vote in the joint ballot to-day for United States Senator resulted as follows: Stanford, 78; Hearst, 37; Farley, 2; Searles, 1.

STANFORD VISITS THE LEGISLATURE.

SACRAMENTO, Jan. 28.—At two o'clock, when the House reconvened, Speaker Parks announced a recess of half an hour to permit the Senator-elect to become acquainted with the members. Senator Stanford came into the Assembly chamber escorted by Speaker Parks, who introduced him to all the members, with whom he chatted pleasantly. Everybody present was introduced and then the Senator went over to the Senate chamber, where a similar scene was re-enacted. Lieutenant-Governor Daggett introducing Senator Stanford to the members. There was not the slightest attempt at ceremony in either house.

THE CERTIFICATE PRESENTED.

SAN FRANCISCO, Jan. 28.—The Chronicle's Sacramento special says: After Stanford's reception in the Assembly and Senate chambers, he went down to the Governor's office. Governor Stonemen said: "Mr. Stanford, I take pleasure in presenting to you this evidence of the trust imposed in you by your party in this State," handing him, as he spoke, his certificate of election as Senator. Mr. Stanford replied: "I thank you, Governor. I hope I shall prove myself deserving of this confidence."

The first man Stanford met in the Capitol to-day was Senator Denis Spencer, a radical anti-railroad man. Stanford and shaking hands with Spencer: "I always like a man of decided convictions. I always hope for his conversion."

Spencer replied, "I am of the same opinion and therefore hope to convert you to our way of thinking on the railroad question."

JANUARY'S PECULATIONS.

Further Complications Arising from His Defalcations.

SAN FRANCISCO, Jan. 28.—The Post's Sacramento special says: The January embezzlement of money deposited in the State Treasurer's office by cersain County Treasurers is likely to lead to further complications. Of ten County Treasurers who suffered by young January's acts, only those of Aldine and Monterey have already settled. Alpine only lost $48.59, while the Treasurer of Monterey loses $1899 56. The Treasurers who will probably refuse to pay are those of Humboldt, El Dorado, Santa Barbara, Mono, Mendocino, San Diego, Contra Costa and Sierra. The Treasurers refuse to settle unless the certificates of special deposit issued by the late State Treasurer can be taken as part payment. This the State Treasurer refuses to do, saying that they are worthless from the fact that even the $14,250 that was not stolen by the dishonest deputy is now beyond his control and in the hands of the receiver (Senator Cox) appointed by the court. This money will no doubt be litigated for more than a year before a final determination can be had in court. It will affect the various funds seriously, notably the school fund. The sum due is about $200,000.

BRIGHAM'S HOPEFUL SON.

What the Polygamous Youth Knows About the Edmunds Bill.

SAN FRANCISCO, Jan. 28.—The Chronicle's Salt Lake special says: Royal B. Young, stepson of Brigham Young, was to-day arrested for polygamy and illegal cohabitation. On examination before the United States Commissioner the witnesses all testified to the marriage being outlawed by the statute of limitation. His plural wife said he didn't visit her at all except once a week to wind her bedroom clock. Young at length asked her if they hadn't agreed to let their engagement drop till they saw how the Edmunds bill was going to come out. She admitted it. The prosecution then asked both if they were sure of that fact. They both affirmed it strongly. Then the United States Attorney asked them if they knew that the Edmunds act was passed in 1882 and not in 1881. With dismay Young admitted he didn't know when it was passed. The examination was not finished and the defendant was put under $1000 bonds till to-morrow.

THE MISSING STEAMER.

No Tidings of the San Pablo—Her Passengers and Treasure.

SAN FRANCISCO, Jan. 28.—Anxiety over the non-arrival of the steamer San Pablo at Yokohama is increasing. She is now out forty days. The vessel belongs to the Oriental and Occidental Steamship Company, and is insured for $450,000. She had five cabin passengers and 950 Chinese returning home for their New Year, and $520,000 in treasure. The crew, including the officers, number fifty-three. The excitement in Chinatown is unusually great, owing to the large number of Chinese and money aboard. The officers of the company still say there is no cause for anxiety, and ascribe the delay to some accident to the machinery. Other steamers have been out longer than the San Pablo.

A Cranky Agent's Punishment.

SAN FRANCISCO, Jan. 28.—The Examiner's Tucson special says: Dr. Hart, subAgent in the San Xavier Papago Indian reservation, was to-day, for resisting with armed force a writ of injunction issued out of the District Count, sentenced to pay a fine of $500 and be confined in the county jail for five days. Judge Fitzgerald in passing sentence said: "And in doing so it is my intention to give you the extreme penalty of the law, which, I trust, will serve to convince you and other inflated and over-zealous public officials that no man, however high in authority he may be, is above the law, and that all are alike amenable to it for any violation or infraction thereof. The sooner this is understood and acted on the better it will be for all concerned, and that other public officials understand that whatever power or authority they exercise, must, in order to justify their acts, be derived from the law, and that they are the servants of the people and not their masters, the better it will be for both officials and people.

The sentence gives universal satisfaction.

To Explore Alaska.

PORTLAND, Or., Jan. 28.—The exploring party to be sent out under the direction of General N. A. Miles, commander of the Department of the Columbia, will leave by the steamer Idaho to-morrow morning for Alaska. It consists of Lieutenant Allen and Sergeant Robinson, U. S. A., and F. W. Fickett, United States Signal observer. The proposed route is as follows: From Sitka to the mouth of Copper river by steamer, thence up Copper river as far as it shall be possible to go upon the ice; when the ice

ENLARGED SHEET.

THURSDAY, JANUARY 29, 1885.

The Council and the Police Chief.

The City Council is called to account by a couple of our city contemporaries (the] evening edition following the lead of the morning issue with promptness and punctuality) for its action, taken at Tuesday's session, in voting an appropriation to defend Chief of Police McCarthy in suits brought against him for alleged damages arising out of certain recent arrests made by him of fallen women and degraded men.

The Herald, starting out with a false premise, argues falsely through a half column, attempting to prove the Chief guilty of arbitrary and lawless conduct in office. It promptly assumes the truth of the charge that the Chief, without either complaint or warrant, "violently and burglariously broke into a house on Los Angeles street." We can find no evidence whatever of the truth of this or any similar charge, and we do not believe it can be sustained. The Herald, in its attempt to make out a case against this new Republican official, who is trying to do his duty without fear, favor or affection, soars off into foreign literary realms, as usual, and makes a curious mess of citations having no appositeness to the very simple and practical case in hand. Its far-fetched references to "the perfervid Earl of Chatham," the King of England, John Wilkes and those parties, may sound sweet to the ear of the florid writer, but they are mere harmless and *malapropos* figures of speech, to employ which is about as timely and fitting as it would be to discuss the assimilated rank and relative official importance of the "Akoond of Swat" and the Mayor of Gospel Swamp.

The case in hand is a very simple and practical one. It is this: The Chief of Police, in the performance of his duty, which is to preserve the municipal peace, enforce the municipal ordinances, and detect and bring to punishment criminals and law-breakers, makes certain arrests based upon personal information, upon information obtained by his department, or upon complaint believed by him to be ample to justify his action. In making these arrests he enters notorious houses of prostitution, not "burglariously" or "feloniously," but in a proper manner, and after the fashion in which such houses have been entered scores of times before by the police. Being within, he there discovers infractions of existing law, or subsequently receives direct complaints from victims who have been robbed in these dens. What does he do? What should he do? What would his critics have him do in the premises? Clearly he must act. Were he to fail to act upon the information received, he would be guilty of gross dereliction of duty—of official sloth and impotency, in fact. He could not have shut his eyes and ignored what he saw and learned without subjecting himself to the severest censure. And act he did. For this he is criticised in certain quarters from which, it seems to us, sympathy and support ought to come. We do not believe the assaults on the Council and the Chief are deserved. The efforts making in certain other quarters—the criminal quarters—to break the officer down are manifest. Shall they be permitted to succeed? We put the question to peace-loving and law-obeying citizens. Those who at this juncture indulge in needless fault-finding and hair-splitting relative to the manner in which arrests have been made ought to perceive that they are arraying themselves (unconsciously, it may be) on the side of the criminal classes. This no good citizen can afford to do.

We are in favor of sustaining the Chief of Police in going to all proper and reasonable lengths in his efforts to suppress crime and break up dens of infamy, and therefore we justify and defend the action of the Council in voting to provide him with legal counsel for his defense in the suits in question. The proposition urged that it is incumbent upon this officer to make his own legal defense in such cases may be a sound one as a general principle, but when there is in existence an evident conspiracy to break down and ruin the head of the police department, and thereby bring all law and authority into contempt, we think it is time for the Council to come to the rescue of its subordinate and hold up his official hands. The appropriation to which such objection is made is not prohibited by any law, and the power of making it is evidently within the discretion of the municipal legislature. Since it is claimed by the City Attorney that he has nothing to do with the defense of these suits against the Chief of Police, we think it is right for the City Council to provide counsel. To leave the officer at the mercy of all the legal and illegal Bashi Bazouks who are yearning for his official scalp would not be the square and manly thing. It would be only a question of time when the strongest officer would be broken down utterly.

THE threatened contests of the seats of Representative Felton of the Fifth, and Representative Markham of the Sixth California District, by Leverson and McGrew, respectively, who claim to have run for Congress-at-large, appear to have very slight foundations of merit to rest upon. The idea of setting up the claim, at this late day, that there are no Fifth or Sixth Congressional Districts in the State, borders on the preposterous. The State was redistricted under the law, and nothing but the merest technicalities can be urged against the legality of the seats awarded to Messrs. Felton and Markham. The threatened contests are unworthy of serious attention by the House, which is the judge of the qualification and election of its own members.

AN error of date occurred in the Legate editorial in yesterday's TIMES. The Pomeroy Senatorial fight referred to occurred in January, 1873, of course, instead of January, 1883.

LA CIUDAD CRESCENTA.

The Cow is Queen, and California is On Top.

A BREAD-AND-BUTTER-EATING MATCH.

Twenty Thousand Hungry People Fed by 600 Fair Hands—The Big Tree, the Pampas Flag, and El Dorado Day at the World's Exposition.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

NEW ORLEANS, January 20, 1885.—The slogan has sounded. The Industrial and the social clans of the world are gathering and are to gather at its Exposition on the Crescent of America's mightiest river. This is well. 'Twill tend towards good-fellowship and better finances, the two essentials of this Centennial's success.

The cohorts of the Cow came to the front on Saturday. No matter whether Cotton or Corn or Cane is King, the dealers in dairy products insist that the Cow is Queen. And to show forth their faith by their works, they invited all and sundry to come and taste that she is good and gracious. A lunch of unlimited butter and cheese, based on Minnesota buns and bread, was served to an appreciative public. The butter-spreading and serving was accomplished by a charming intermixture of dark-eyed Creoles and their fair-haired Northern sisterhood. Twenty thousand people partook of the good cheer provided by six hundred contributors from twenty States. Even this big demand made small inroads upon the 75,000 pounds of butter held in cold storage, and the huge cheese pyramids, one of which was built upon a five-thousand pounder from Wisconsin. But art as well as avoirdupois found illustration, and beautiful floral, foliage and fruit forms, carved in "gilt-edged creamery," fed the delighted eye also.

A correspondent of the TIMES is cordially received "where angels fear to tread," and so I found MY bread buttered beside that of Consuls, United States and foreign Commissioners, Julia Ward Howe and members of the American Horticultural Society and New Orleans Produce Exchange in Superintendent Marvin's private rooms. The unctuous lunch so oiled the tongues of Hon. Hiram Smith, of Wisconsin, and others, that they eloquently expressed, at its close, the universal satisfaction of those who attended this opening day of the Exposition Dairy Exchange.

The guild of fruit-growers is having the best of times, and is doing the best of work to help along its common cause—the advancement of pomological interests. Its members have come to stay, and make the most, in their department, of this cosmopolitan congress. And they advise everybody else to do the same. They hold very frequent sessions; by day in Horticultural Hall, in the evenings at the house of their President, Parker Earle, and they pass most vigorous resolutions emphasizing the superlative excellence of this exposition and urging an overwhelming attendance. But they play as heartily as they work. They visit their sister associations, as mentioned above at the Dairymen's lunch. They visit the distant suburbs of the city on the invitation of the railroad companies, which are anxious to show them the fatness of their South-land.

The society has been to Lake Borgne. It goes to Pass Christian this week. It is now wrestling with the question of choosing the place for its next annual session. Owing to recent change of name the association now represents all America, and it is free to meet anywhere from Florida to Quebec, from Maine to California. Zealous members from the Pacific slope are urging the claims of their section.

Other organized bodies are beating up recruits for a raid on New Orleans at this exceptional time. The veterans of the late Confederate and Federal forces are seeking out a camping ground hard by. The "commercial travelers" are drumming together their men into a mighty convention here at an early day. The Templars are coming, and numerous religious and scientific societies, social clubs and workingmen's unions are moving in the same direction. They will all be more than repaid for their time, expense and trouble.

Day by day this great blossom of the modern world is opening up new glories and attractions of every kind. The electrical railway is now in active operation. It is called the Daft Railroad, but it is no crazy concern. Thousands avail themselves of the novel sensation of being sped along by the "coming motive power." It affords a rare and rapid transit between the Main and Government buildings.

The latter has begun to break out into special displays of vitality. The States are beginning to feel at home, happy, hospitable, and disposed to boom their beloved bit of our common Union. California opened the ball yesterday—the thirty-seventh anniversary of Sutter's mill and "all that that implies." At the sound of music everybody made straight for the "big tree" and the pampas flag. Visitors from all the world had heard of the California festival, and wanted to be a part of it. The northwest corner of the building was quickly crowded with an eager and enthusiastic audience. Acting Commissioner Turrill mounted his sequoia rostrum, welcomed the throng and began his oration. Julia Ward Howe and a distinguished delegation from the Woman's Department arrived a little late. Mr. Turrill gracefully paused to greet their coming. Seats were all occupied, but the instinctive politeness of an aboriginal native American came to the rescue. The well-painted and gaily-plumed "Gall," big chief of the Sioux Indians, arose and with his family vacated their seats to be occupied by the *ne plus ultra* of Boston culture and her refined retinue. So do extremes meet. An instance on the affirmative side of Mrs. Howe's conundrum, "Is polite society polite?"

Speaker Turrill rehearsed quite fully the romantic story of the founding of California by the Argonauts of '49 and the fifties. He grew eloquent as he approached his peroration and recounted the varied resources of his chosen State, and he ended amid roars of applause.

Owen of the San Jose Times-Mercury, with fine journalistic instinct, referred his hearers to future issues of his paper for his inexpressible sentiments, and quickly stepped down and off the Sequoia stage. Ben. C. Truman gave his experience of seven years in Los Angeles county, each with 350 days when he could sit on his porch and listen to the melodious mocking bird. "Look around you," said he, "and learn more than I can tell you of the land of grapes and grain, of wine and honey, richest ores and salubrious climate."

At the close of his remarks, the camera of the omnipresent photographer was seen to be located at the rostrum, and all Californians were invited to gather of the "Big Tree" section and become souvenirs of the joyous occasion. The giant should have been cut nearer its base, but some forty found space to stand and be taken. In the front I noticed Tom Hill the artist, his son and wife, Lemmon the botanist—but space fails to enumerate. You may see the picture some day—pick out your friends.

During this picture-process, the guests were making themselves jolly over the generous distribution of choice wines and luscious raisins and lucent honey. In the language of a local paper: "The whole entertainment was most enjoyable for all concerned, and being the first of the sort given at this Exposition, may prove an example for other States to follow."

All honor to El Dorado! In the front forever! J. A. BREWSTER.

FINANCE AND TRADE.

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, Jan. 28.—Governments strong. Railways slightly improved. Stocks irregular; generally weak, weakness caused in early trading by a break of 3¾ per cent. in Central Pacific, and 4½ in Oregon Navigation. Stocks most affected in sympathy were the Villard's Northern Pacific, preferred, and Oregon Transcontinental. Oregon Navigation sold down 6¾ per cent. from yesterday's closing, followed by a recovery of 1 per cent. Majority of flowing stock is held for foreign account and majority of selling orders came from that city. Northern Pacific, preferred, sold off 1¾, and Oregon Transcontinental 4¾; former recovered ⅞ at close. President Smith says that $7,500,000 of the Oregon Transcontinental loan, under circular of November last, has been placed, and an option given on $2,500,000 remaining, which expires May 1st. Lackawanna was well sustained and unchanged. Delaware and Hudson and Grangers show fractional decline. Petroleum steady at 89¾. Money easy at 1 per cent. Prime paper at 5@6 per cent. Exchange bills strong at 4.81¾, demand $4.88¾.

MISCELLANEOUS.

Dr. Kellogg

—THE—

CELEBRATED & WORLD-RENOWNED

MAGNETIC HEALER,

From New York city, is now at the Pico House, and will remain there for a limited time, curing and healing the various compliseated diseases to which the human frame is heir.
Dr. Kellogg has a world-wide reputation for his extraordinary cures of difficult and chronic cases.
He is the miracle of all mortal marvels, and one of the greatest wonders of the Nineteenth century, performing cures which equal, if not surpass, the old time miracles, causing the blind to see, the deaf to hear and the lame to walk.
CONSULTATION FREE, and one hour each day will be devoted expressly to the poor of this city, or those who are unable to procure their own medicine. They will be treated free of charge. The Doctor gives away more medicine than half the others sell. Consultations at office or by mail, free and invited. A friendly talk or opinion costs nothing. When inconvenient to visit the city for treatment, medicines sent by mail or express everywhere, securely packed, free from observation. Curable cases guaranteed; where doubt exists it is frankly stated. Hours 8 a. m. to 8 p. m. Sundays, 12 to 3.

Nervous Prostration, Debility, Mental and Physical Weakness, Mercurial and other Affections of Throat, Skin and Bones, Blood Impurities and Blood Poisoning, Skin Affections, Old Sores and Ulcers, Impediments to Marriage, Stunted Development, Rheumatism, Malaria. Especial attention to complicated, Difficult, severe and SURGICAL cases. Piles cured WITHOUT USING KNIFE.

Diseases from indiscretion, excess, exposure or indulgence, producing some of the following effects: Nervousness, Debility, Dimness of Sight, Perverted Vision, Defective Memory, Pimples on the Face, Aversion to Society of Females, Want of Pleasure in Life, Want of Ambition, Unfitness to Marry, Melancholy, Dyspepsia, Headache, Restlessness, Loss of Spirits, Pains in the Back, etc., are treated with unparalleled success, safely, privately.

Catarrh, Throat, Nose, Lung Diseases and ASTHMA. Liver Complaints.

It is self-evident that a physician paying particular attention to a class of cases attains great skill, and physicians in regular practice all over the country, knowing this, frequently recommend cases to this oldest office in America, where every known appliance is resorted to, and the proved good remedies of all ages and countries are used. A whole house is used for office purposes, and all are treated with skill in a respectful manner; and, knowing what to do, no experiments are made. On account of the great number of cases applying, the charges are kept low, often lower than is demanded by others. If you secure the skill and get a speedy and perfect life cure, that is the important matter. Leucorrhœa cured in four treatments. It is the most troublesome disease known to the female sex.

Cancer Cured without pain and speedily. No cutting done.

Tapeworm removed or no charge. Many persons suffer greatly from the effects of tapeworm who doctor for Dyspepsia, Indigestion, Nervous Prostration, Palpitation of the Heart and a Dry Cough, in consequence of the parasite irritating the throat.

THE SYMPTOMS OF TAPEWORM

Are characterized by restlessness at night, sickness of the stomach, vomiting, convulsions, epileptic fits, faintness, stupor, loss of memory, gnawing sensation in the stomach, pains in the side and back, dry cough, a voracious appetite at one time and a loathing of food at another, a choking sensation when lying down, disagreeable breath, face flushed, nose contracted, heaviness of the eyes, bad digestion, stomach bloated at times, emaciation of the body and great nervous debility and dizziness of the head. Some persons may have all the above symptoms while others only have a part of them, and some will have a tapeworm for a long time, and yet never pass any joints or pieces, which is the only positive evidence of its existence. During a residence of eight years in New York city he

Cured Over 6000 Patients,

A large portion of whom had previously been given over by ordinary practitioners as incurable. His system of treatment is peculiar to himself; by it the vital forces become equalized; no pain is caused; no poisonous medicine given, and no surgical operation performed. The most hopeless cases taken and cured after all else has failed.

CONSULTATION FREE.

References will be confined to prominent men, who are known to all by reputation if not personally. Among the following are a few of the many, and some of them are near your city: Hon. James G. Blaine, of Maine; Seth L. Milliken, Belfast, Maine, Senator-elect; both cured of nervous prostration, induced by over work; W. N. Cowles, Santa Barbara, Cal., manager Arlington Hotel; Chas. A. Foster, chief clerk of same hotel, was relieved of a tapeworm 42 feet in length; can be seen at my office, Pico House.
Can take a tapeworm in two hours complete. Will prove to you, free of charge, as to whether you are afflicted with tapeworm or not. No charge for first lot of medicine.
Mrs. T. J. Alexander, a resident guest of the Arlington, says: "Was troubled incessantly for more than 3 years with headache, scarcely one day's comfort, until I was treated by Dr. Kellogg, who entirely cured me in a few days."
Space will not permit to insert more testimonials, but there are many in the Doctor's possession.
Do not fail to visit Dr. Kellogg,

"The Wonder,"

After all others have failed to cure you.
The most obstinate diseases succumb to the Doctor's unlimited skill.
My diploma hangs on my office wall for inspection of patients. Patients will find the Doctor a gentleman, socially as well as professionally.

Found on Boyle Heights.

In Los Angeles city, a place where ladies and gentlemen can go out driving during this rainy weather without danger of getting stuck in the mud; a place where those in search of healthy location, if not for some may select their locations at once, without having to wait six months to do so; a place where the altitude is sufficient to bar all malarial diseases, and where a boat will not be required to go to and from the street cars during the rainy season; a place where the drainage is excellent, and where one can have a splendid view of the surrounding country, enjoy the beautiful sunshine and breathe the pure air direct from the ocean; a place where residence lots may be had at this time at a very low figure, but where, in a few years from now, for the reasons mentioned above, they will command a much higher price than lots in any other part of the city the same distance out.
All persons in search of desirable locations for homes at reasonable prices, and who desire to locate in a good neighborhood where the improvements so far are first-class, will find it to their interest to thoroughly examine the residence property on the west side of Soto street, between Aliso avenue and Brooklyn street, known as the "Breed tract." The Boyle Heights line of street cars run by the tract every half hour. Carriages will not be in waiting to convey parties over the tract; neither will there be a free lunch spread for them, but the streets will be found dry, the atmosphere pure, and the view from the hill such as ought to repay anyone for their trouble, whether they purchase a lot or not. The owner of these lots proposes to sell them on their merits alone. Hence, no chromos will be presented to purchasers. For further information inquire at the house on the corner of Soto street and Aliso avenue. ja13 1m

GILT EDGE INVESTMENT

For Life

That will pay 15 per cent. the first year, 20 per cent. the second year, and 25 per cent. the third year, and by crushing the grapes and making them into wine instead of selling them, this percentage or income can be doubled. Besides the growth of the vines and trees will add to the value of the place $12,000 a year for some years to come. Two hundred acres of vineyard and fruit trees, now all in bearing, one-quarter of a mile from the S. P. R. R. depot, San Gabriel, California.
There is about 300,000 grape vines of choice varieties for wine making, that will yield about five pounds to the vine this year, or 500 tons; seven and a half pounds to the vine next year, and ten pounds the next year as the vines get older. Also an orchard of old bearing orange and lemon trees now loaded with fruit, with some 2000 choice fruit trees, such as apricot, Bartlett pear, peach, French prunes, cherry, plum and apple. COMPOUND OXYGEN.

THIS MEANS (1) OXYGEN, THE VITAL element of the air, without which no life can exist for a moment; (2) Nitrogen, the conservative and preservative element; (3) Mesmetism, with which the O and the N are scientifically combined and intensified. And this gives a curative agent without an equal, that contains three life-giving and health-preserving elements of nature's own selection and of universal application. A poet has named it, "Nature's Triple Elixir of Life," and a doctor has styled it, "Nature's Own Remedy for Many Diseases." It differs from medicines, (1) In that it is not a medicine in any sense, any more than the air we breathe or the electric fluid; (2) It differs from medicine in that, being inhaled into the lungs, it is absorbed directly by the blood and cures by a natural process of revitalization and cleansing; (3) It differs from medicine in that its sphere of action is universal, thus adapting it, as the reader will see, to most diseases of the human body; (4) It differs from all medicines or other remedies, in that it has cured 75 persons out of every 100 who have taken it. It cannot cure, of course, where there is nothing to build upon. As thousands have been cured of Asthma, Bronchitis, Catarrh, Consumption, Nervous Exhaustion, Paralysis, and other nervous and wasting diseases, not to mention Scrofula, Dyspepsia, Neuralgia, Rheumatism, Female Diseases, Headache, Vertigo, etc., etc.
It affords us pleasure, therefore, to say to physicians and sufferers that Compound Oxygen is now manufactured at Los Angeles, Cal., (the only place on Pacific Coast) by Prof. N. L. Rigby, Ph. B., and treatments are furnished upon prescription or application.
Terms reasonable.

Death of C. F. Clark.

Charles F. Clark died at his residence on Boyle Heights yesterday afternoon after a long illness. The deceased leaves a wife, confined to a sick bed, and seven children, the eldest of whom is only eight. Mr. Clark was an Englishman, who came to this city with his family about seven months ago. Although the deceased gentleman was not a member of the Masonic order at the time of his death he had been a member for several years prior to 1879. The Masons will, nevertheless, take charge of the burial this afternoon.

Need of a City Hospital.

The evidence given by Health Officer Baker yesterday in the Ball inquest shows the great need of a City Hospital, or some hospital to which the Health Officer can send the indigent sick. When Ball was sick in the jail there was no institution to which the officer had authority to send him. The verdict of the jury attributes his death, in part, to exposure while in jail.

A Runaway.

Yesterday afternoon about one o'clock a horse attached to a sulky started on a wild runaway from the corner of Second and Los Angeles streets. McCRARY vs. BEAUDRY.

Judge Brunson's Decision About the Rights of Water Purchasers.

In the case of McCrary vs. Beaudry in the Superior Court, in regard to the application of plaintiff for a peremptory writ of mandate, Judge Brunson, in overruling a demurrer, gives a long and able opinion on that point in the case, and cites a number of authorities:

Before a party can obtain a peremptory writ he must notify the other party. Under our practice, he is, as in this case, notified by the alternative writ. That writ says: Come into court and show, if you can, why a peremptory writ should not issue against you. The affidavit was used to procure the alternative writ, and having done so it has performed its functions, and becomes itself functus.

It was argued by defendant's attorney that petitioner might supply himself by a surface well, by a wagon, horse and barrel, and haul water; but this does not appear by the petition or writ, even if that would be a remedy or a power which would relegate him to his action at law for damages, but the contrary does appear. The facts as stated, therefore, show that plaintiff has not a sufficient legal remedy. Has he any remedy? Sec. 1085, C. C. P., gives him a right to the writ of mandate to compel the performance of an act the performance of which results as a duty from an office, trust or station, or to compel his admission to the use and enjoyment of a right to which he is entitled, and from which he is unlawfully precluded by a corporation, board or person.

It is contended by defendent that he acts simply under a license; that he is at liberty to choose his customers, to supply whom he pleases, and to deny the rest of the world; that he occupies the same relation to the public as does a retail merchant. In support of this theory he cites the court to several authorities, the strongest of which is the case of Patterson Gaslight Co. vs. Brady, 27 N. J. Law R., 246.

The defendant's rights and liabilities are those which grow out of the exercise of a franchise, for private gain to the owner, but for public use to the citizen.

That he has a right to his pay, and even to collect it in advance, I do not doubt, and that patrons or consumers must comply with all proper rules and regulations which he or the State may make, I do not doubt. Whether he could be compelled to extend his pipes or supply more customers, it is not necessary nor would it be proper now to determine; but to hold that at his option he can be permitted legally to exclude plaintiff, under the facts as alleged and as admitted by the demurrer, from the enjoyment of this public use growing out of his franchise, is, in my opinion, a subversion of the plain letter of the Constitution, and would be a denial to plaintiff of a constitutional if not a common-law right.

MYSTERIOUS DEATH.

The Identity of the Body Found at Santa Monica Unestablished.

In response to the notice sent him on Tuesday, Coroner McFarland immediately went to Santa Monica to hold an inquest on the body found about 12 o'clock of that day on the beach. The inquest and autopsy were held in Bernard's warehouse and occupied nearly all of Tuesday night. The verdict was that deceased came to his death from a gunshot fired either by himself or some person unknown to the jury. The body was brought to this city yesterday, embalmed, and now awaits identification at A. Brown's undertaking establishment.

The body was found in the surf about a mile and a half from Bernard's warehouse. The appearance and condition of the remains did not indicate that it had been in the water more than twenty-four hours. There was nothing found on the body by which it could be identified, not even an initial on the clothing. The only witness at the inquest who had ever seen the deceased in life was a Mr. Knox, who testified to having seen the man on Friday last, going towards the lake and having a double-barreled shotgun with him. Two women testified to having seen, on Friday afternoon, a man struggling in the water, near the spot where the body was found. They could themselves render no aid and ran for assistance. When they returned to the spot nothing could be seen of the drowned man. The body found on Tuesday could not have been that of the man seen by the two women, for the reason that a bullet hole in the head showed that this man's death was instantaneous, and that he died from a gunshot and was not drowned.

When found the body had on a black basket cloth suit, Canton flannel underwear, calfskin boots, well-worn, No. 7; No. 10 cuffs, marked Troy; a pair of almost new blue and white striped suspenders, and a white linen shirt. No hat could be found. The only article found in the pockets was a four-blade tortoise shell handled knife, one of the small blades broken.

The length of the body was five feet ten inches, and in life the man must have weighed about 185 pounds; high forehead, dark brown hair, and brown eyes. No whiskers or mustache. Nose rather flat, having the appearance of having been at some distant period broken. A plate in the upper part of the mouth contained four false teeth, two incisors, and a molar on each side.

The postmortem examination revealed a bullet hole through the right temple, and a cartridge, No. 38, was found in the left side of the brain. The remains will be kept as long possible with the hope that some light may be thrown upon the case, both as to the identity of the man and whether his death was a murder or suicide.

AMUSEMENTS.

GRAND OPERA HOUSE.—The admirers of Mr. W. E. Sheridan had the opportunity last evening to witness his assumption of a role which has gained for him a deservedly wide-spread reputation. His remarkable success in *Louis XI* was the attraction which assembled a much larger audience at the Grand Opera House than any that has gathered there for a long time. Mr. Sheridan's conception of the great character was powerfully realistic, and the support rendered by the rest of the company was quite in keeping with requirements of the drama. This evening *The Hunchback* will be given. On Saturday evening there will be a performance of *The Fool's Revenge* for the benefit of the Veterans' Home Association. The benefit is a part of an organized effort now being made to raise the funds necessary to place this noble institution on such a financial footing that it can carry out the great purpose for which it was formed.

THE ABBOTT SEASON.—The box-office at the Grand Opera House opens this morning at 10 o'clock for the sale of seats for the entire week of English opera to be given by the Emma Abbott Opera Company. So much encouragement has been given by the large subscription for season tickets, that the management has decided to give an extra matinee on Wednesday afternoon, when the melodious *Bohemian Girl* will be given at popular prices. The week promises to be a marked event in the musical annals of Los Angeles, and it is not unlikely that seats will be at a premium before the opening night.

COVINA.

THE NEW SETTLEMENT IN THE AZUSA COUNTRY.

Correspondence of the TIMES.

COVINA, Jan. 26.—In writing my first letter from Covina I will endeavor to make your readers acquainted with our geographical location, and give a short description of our valley. We are centrally located in what is known as Azusa valley, twenty-two miles east of Los Angeles, and twelve miles southwest of the snow-capped mountain, the most prominent peak in the county, known as "Old Baldy;" six miles northeast from Puente Station, on the Southern Pacific Railroad. The Azusa valley is watered by the San Gabriel river and slopes to the south and west, and being sheltered from the winds by the mountains north, east and south, and having a clear open valley west to the sea, makes it a very desirable valley to live in. There is no valley in the county that has been more abused by its sister valleys than the Azusa, and I propose in my letters to give you the real facts concerning our productions, titles, water, etc., and disabuse the minds of the people of the false ideas they have received of our country. The valley was settled by a colony from Texas about seventeen years ago, and for years they spent their earnings lawing the Azusa grant, and of course their improvements were meager and their experiments as to what productions were best suited to the soil, climate, etc., were few, while their water development was barely to suffice for present necessities. These discouragements were told abroad and kept a great many from settling here that were pleased with the face of the country.

The Government decided the land question in favor of the settlers, and issued them patents, forever settling the question of the title. The grant still claimed a prior right to the water, and as the land was worthless without water, the settlers found themselves in for another suit. This was finally settled, giving the settlers seven twenty-fourths of the surface water, which is abundance in any year. Since these knotty questions of law have been decided, the inhabitants have turned their attention to the development of the water and resources of the valley, and they have made such rapid progress that wealthy men are coming in and purchasing, with perfect confidence in the valley's future.

DETECTIVE WORK.

Arrested on a Telegram from Riverside.

Sheriff Gard and Deputy Sheriff Aguirre did a nice little piece of detective work yesterday afternoon. The Sheriff received a telegram from Riverside asking him to arrest a young man by the name of William Scrimger, but the telegram did not state what the young man was wanted for. The officer located the young man at the Grand Central, and as there were four together in the same room, and he had only a telegraphic description of the man wanted, he requested the hotel clerk to ask Scrimger to come down to the office. The young man said he would come in a moment, and the clerk returned to the office. Scrimger, instead of coming down the front way, went down the back stairs, and passing out of the rear of the hotel, made good his escape. The Sheriff, when his man did not appear promptly, made inquiries and knew at once the bird had flown. Knowing that Scrimger would, at some time during the afternoon, rejoin his three friends, Mr. Gard and his deputy shadowed them all the afternoon. Toward four o'clock two of them went to the depot and bought a railroad ticket going north, and a little later came to the St. Elmo saloon. Aguirre followed the two when the trio separated, and Mr. Gard kept track of the third. Both the officers coming from different directions met at the St. Elmo at the same time, and there found Scrimger with his four friends. While in the custody of the Sheriff the young man said that his arrest was all brought about by a mistake. He owes a little money at Riverside, and claims that he was ordered to be arrested as the parties there believed he was going away without paying the money. It was his intention, he said, to return to Riverside to-day and pay the account. But for his action in trying to escape from the Sheriff, his version of the cause of the arrest and his profession of an intention to pay would have more weight. His reputation at Riverside, up to the time of his leaving, was very good. He was known as an honest, industrious, sober, trustworthy young man, who worked every day during six months that he lived at Riverside. He is well-connected in the East, and has always had money with him. Three hundred dollars in checks was found on him when arrested. He will be taken to Riverside this morning.

Released on Bail.

The preliminary examination of Juan Pantajo for the murder, on January 25, of Jose Preciado took place yesterday morning before Justice Austin. Mrs. Crowly and Mrs. Pantajo, wife of the defendant, testified exactly as they did at the Coroner's inquest. In addition, Mrs. Campbell testified to Jose Preciado's coming to her house, which is near Pantajo's, on Sunday about one o'clock, and saying that he was going to kill Pantajo that day. Jose Sanchez, an old citizen of Los Angeles, testified to meeting Preciado on the the plaza on Sunday morning. Preciado asked him to carry a letter to the wife of Juan Pantajo. Sanchez refused, and Preciado then said that it would make no difference as he was going to blow Pantajo's brains out that day anyway. Justice Austin held the defendant to await trial. Pantajo was taken before Judge Cheney a little later and bail was fixed at $5000, the District Attorney offering no objection. Jose Mascarel, C. Gassagne, M. Ballade and A. E. Sepulveda were the bondsmen.

Episcopal Convention.

The convocation of Southern California was opened yesterday morning at St. Paul's Church. Rev. J. D. H. Browne preached the opening sermon, after which Holy Communion was administered. At 2 o'clock the members of the convocation met in the vestry of the church and held a short business session. The convocation is composed of all the clergy of the church who are in active pastoral work in Southern California. The members are Rev. A. G. L. Trew of San Gabriel, Rev. J. D. H. Browne of Pomona, Rev. J. A. Emery of Tustin, Rev. A. W. Macnab of Pasadena, Rev. W. C. Mills of Anaheim, Rev. C. S. Linsley of Wilmington, Rev. E. McManus of Los Angeles, Rev. H. W. Summers of San Luis Obispo, Rev. John Bakwell of Santa Barbara, and Rev. S. G. Lines of Riverside. The services last night were of a very interesting character, and were well attended. There will be public services again this morning at 10 o'clock and also at 7 o'clock in the evening.

Mysterious Disappearance.

An aged gentleman, a stranger in the city, rooming at 441 Buena Vista street, who for the past few days had been somewhat unwell, yesterday morning, shortly after 9 o'clock, expressed a desire to go out in the bright sunshine. Soon after he was missed from the yard, and every effort to find him has thus far proved unavailing. He is about 5 feet 7 inches high, wears a white beard cut somewhat short, wore a round-topped black hat, dark steel mixed suit, a brown castor beaver overcoat, with velvet collar, a brown silk handkerchief, with purple border, around his neck. He carried a hickory cane with bent handle. Being unacquainted with the city and easily confused, he is undoubtedly lost. Any information concerning him will be thankfully received at 441 Buena Vista street, or at George T. Hanly's coffee and spice mills, near the new depot. Word left at the police office will reach the friends speedily.

Truly a Hunter's Paradise.

Some of our hunters think Mr. John E. Eberle's report of a forty-two pound wild turkey shot near Alma, New Mexico, to be rather large. The same gentleman informs the TIMES that two hunters who were out four weeks prior to January 1st killed 280 deer and eight bear. When Mr. Eberle came in to Silver City a few days ago he brought thirty-four deer, twenty-eight turkeys, 350 pounds of deer skin and three bear skins.

Burglary at Wilmington.

Henrich Hilderbrandt, of Wilmington, reported to Sheriff Gard yesterday that his saloon had been robbed on Tuesday night of thirty-five hundred cigars and several dollars in small change. No clue to the burglars was obtained.

Discharged.

May Rogers, arrested on Tuesday for robbery, was discharged in Justice Austin's Court yesterday morning. When the case was called the prosecuting witness, Simpson, could not be found, and the woman was released.

Correction.

In the article entitled "A Los Angeles Miner," in yesterday's issue, the figures "$1000 per car-load" (weekly shipments by the Cosby & Miller mine to Denver) should be $10,000.

CALIFORNIA ORANGES.

Let Los Angeles County be Represented at the World's Exposition.

The great victory for the California exhibit of apples over those from all parts of the world was eloquently set forth in the letter of the TIMES' special correspondent in our Sunday's issue. It is a surprise to even our most sanguine people. Its commercial value to Southern California cannot be overestimated at this time. Now we are invited to another contest on seemingly more equal grounds. The exhibits of oranges will be opened in February. Advices from Florida show that the orange-growers of that State are fully alive to the importance to them of their carrying off the prize at New Orleans. It is said that the papers of that State teem with appeals to the orange-growers to make the Florida exhibit so fine that the prize will be awarded to them by acclamation. Californians have the reputation of getting what they go after. There is scarcely a doubt that our California oranges, in size, color and flavor, are greatly superior to those of Florida. No other oranges in the world can equal our Washington or Riverside navels in its best state. Now, if we mean to win the highest award of the World's Exposition there is no time to be lost. There must be prompt, vigorous and united action. Let there be selected one or more persons in each of our orange-growing sections to visit every orchard that produces the best fruit and arrange to have the fruit reserved for the fair. Let the picking all be done in every locality on a given day and immediately sent to the Germain Fruit Company, of this city, who will pack it with the greatest care. The Times-Mirror Company will prepare and print labels for the whole exhibit. Let everyone be ready to lend a hand, and soon the whole country will cheerfully concede what we know to be a truth, that California can beat the world on oranges.

The following named gentlemen have been selected to secure a representation from their several localities:

Riverside—Guy G. Majors, L. M. Holt.

Pomona—C. E. White, E. T. Palmer.

San Gabriel—J. R. Dobbins, A. S. Chapman, A. C. Weeks.

Pasadena—P. M. Green, Mrs. Jeanne Carr, Byron O. Clarke.

San Fernando—C. R. Rinaldi.

Orange—Robert McPherson.

Santa Ana—A. Guy Smith.

Los Angeles—W. H. Workman, J. W. Wolfskill, J. W. Montgomery.

Duarte—Manager for Eugene Meyer.

If other names are suggested we shall take pleasure in publishing them. The columns of the TIMES are open to any who have valuable suggestions to make as to the ways and means of making our exhibit invincible and thereby maintaining the honor of the Golden State at New Orleans.

Hurt by a Fall.

E. Bowers, an old man who lives on Aliso street, while drunk yesterday afternoon was thrown out of his wagon on Buena Vista street, and received a pretty bad cut on the head. He was picked up by an officer and taken to jail where his wound was dressed, after which a friend took him home. The team driven by the old man ran away when left without a driver.

Electricity and Magnetism the New Means of Cure.

Dr. E. Robbins, the celebrated Australian Electro-Magnetic Healer, Larronde Block, corner First and Spring streets, entrance on First street, after several years' experience in the Australian colonies, San Francisco, Salt Lake City, Denver and two years in this city, has decided to permanently locate here, where he has performed so many wonderful cures without the aid of medicine. His rooms are crowded daily with patients anxious to get the benefit of his power over so-called incurable diseases. Dr. Robbins is patronized by many of our leading citizens. He also diagnoses disease without examination, explaining to him the patients, free of charge, and has fitted up the Institute at considerable expense with Dr. Scofman & Palmer's celebrated electro-therapeutic bath, which is pronounced by eminent physicians to be the greatest discovery in medical science of modern times; also other medicated baths, with the latest improvements in electrical instruments for administering Faradic, Galvanic and Static electricity.
